

Transportation Security Administration Officers Want to Join an AFGE UNION!

In the aftermath of 9/11, Congress passed the Aviation and Transportation Security Act creating the TSA and federalizing the duties of screening passengers and baggage at airports.

Under the last 7 years, TSA officers have been systematically denied basic Labor Rights. Join us as we support TSA Officers in their struggle to organize a union and have collective bargaining!

This Wednesday lets stand together with our brothers and sisters from AFGE, and TSA Officers as we fight for the UNION!
